Matteo Baroni

(born in Florence 1977)
is a contemporary Italian artist. His formation starts at the Art Institute of Florence, subsequently he graduates at Central Saint Martins College of Art in London.

His work, mainly sculpture and land art, addresses issues regarding our destructive relationship with the natural environment and through his practice he raises awareness on the faults of consumerism; unwilling to add other 'things' to this world, discarded materials become his media of choice, he adapts and devises techniques to use them to create refined works of art.
